A CARD.

Editor Ledger: Mr. Ed. Whittington wants the public to know that himself and two friends were caught on the trestle of the street railway and would have been run over if he had not hung on to the car, or he would have had to jump twenty feet, which would have probably done him great damage. It was proven before "Squire Grant" that the motorman did not try to stop the car.

Notice to Farmers!

At a meeting of the grain merchants and millers of Maysville, held on June 24th, 1892, the subject of cleaning wheat by farmers was introduced and fully discussed, and the following preamble and resolution was adopted: That whereas, in former years, owing to the superior quality and cleanliness of Mason county wheat, it enjoyed a reputation second to no other section of the country and was much sought after, but in recent years, owing to the imperfect cleaning of wheat by threshers, it has suffered very materially in grading in the general markets in comparison with wheat from other states, resulting in no inconsiderable loss to the farmers, and many of the former large wheat customers have been diverted to other markets; therefore, be it

Resolved, That the grain dealers and millers of this city feel that it is incumbent upon them to make it known to the farmers that they must insist upon them having their wheat well cleaned and screened by threshers, otherwise prices will be made accordingly. They desire to state, for the benefit of the farmers, that wheat to grade No. 2 must weigh at least 58½ pounds to the bushel, thoroughly clean and dry, free from sand and other impurities; and that wheat to grade No. 3 must weigh at least 56 pounds to the bushel, and be dry and reasonably clean, and may contain a small amount of chaff, free from stain. Wheat not up to the above grades will be classed as rejected.
